

Making healthier happen.

At HFI, we don't just supply and process ingredients. We create ingredient solutions, consistently and passionately, with supply assurance. Our customers benefit from the combined resources, facilities and expertise of the HFI family, all focused on bringing safe, premium quality ingredients to the table.

Our integrated, controlled and certified processing facilities for cleaning, blending, milling, micro-reduction and retail packaging provide customers healthy ingredients they can trust.

OUR HFI FAMILY: SK Food International Hesco Suntava Heartland Flax

Providing Advanced Food Safety and Quality Assurance

HFI is committed to providing premium quality products and services that exceed our customers' expectations and all applicable industry and regulatory standards. Our safety and quality assurance processes meet the highest standards in the industry, and we are continuously focused on developing advancements.

Our latest innovation, IntegriPure®, is our microbial reduction solution that means industry-leading validation for a 5-log reduction providing food safety, naturally. Our process effectively reduces microorganisms while protecting the integrity and functionality of the ingredients. The innovative rotation-based system evenly distributes dry, saturated steam heat for consistent pasteurization of the ingredients and the quick-cooling vacuum ensures ingredient stability and quality. Our process is natural, chemical-free and gentle on ingredients.

Rooted in Service, Safety and Quality
