

HFI and KND Labs are the leaders in independent third-party certifications and compliance within the **hemp cannabinoid industry**. Together, we go above and beyond industry standards because we know that ingredient quality, purity, potency, safety and consistency are essential to protecting your business and the health of your customers.

Our facilities adhere to the strictest independent manufacturing, quality and safety certifications, and employ an unrelenting commitment to self-regulation, which has earned us the respect and trust of leading global brands, labs and manufacturers from around the world.

Certified by the World's Leading Third-Party Auditors

ISO 9001:2015 Certified - recognized worldwide as a premier quality management system (QMS) that ensures that we have demonstrated the ability to consistently provide products and services that meet customer and regulatory requirements.

Active Pharmaceutical Ingredient Certified (API) – recognizes our facilities as a certified manufacturer of CBD for pharmaceutical applications. We are one of the first and only hemp cannabinoid extractors/suppliers to hold this certification.

cGMP 21 CFR Part 111 Dietary Supplements – verifies that our facilities have the proper controls in place for dietary supplements (hemp cannabinoids) during manufacturing, packaging, labeling and holding operations.

cGMP 21 CFR Part 117 Food – ensures that we have established and implemented a food safety system for our hemp cannabinoid ingredients that includes an analysis of hazards and implementation of risk-based preventive controls.

EEFCI cGMP for Cosmetic Ingredients (European Federation for Cosmetic Ingredients) – certifies that we have manufacturing controls in place for the production of cosmetic ingredients and that these controls ensure our hemp cannabinoid ingredients possess the stated quality and purity, and that they are suitable for their intended use.

National Animal Supplement Council Approved Supplier (NASC) – we are one of the only hemp cannabinoid extraction facilities certified as an NASC Preferred Supplier. Pre-qualification allows NASC member companies to use our ingredients and services without additional vendor qualifications.
